

**"VERSION WITH MARKINGS TO SHOW CHANGES MADE."**

8. *(Twice Amended)* A method for making snow, the method comprising:  
providing a plurality of discharge nozzles mounted on a discharge unit; and  
controlling a ratio of water to air discharged from the discharge unit by selectively  
controlling discharge of a supply of pressurized water and a supply of pressurized air  
from the plurality of discharge nozzles by selecting ~~to select~~ at least one discharge nozzle  
from the plurality of discharge nozzles, comprising:  
opening at least one first outlet of a plurality of outlets of a control  
mechanism;  
closing at least one second outlet of the plurality of outlets; and  
whereby at least one of the supply of pressurized water and the supply of pressurized air  
is discharged through the at least one discharge ~~first~~-nozzle of the plurality of discharge nozzles.
12. *(Twice Amended)* The method of claim 8 ~~10~~ wherein the selecting the at least  
one nozzle comprises turning a handle of a control unit operably connected to the control  
mechanism among a plurality of positions to cause the discharge of water from at least one water  
discharge nozzle of the plurality of discharge nozzles and the discharge of air from at least one  
air discharge nozzle of the plurality of discharge nozzles.
